

Certificate of compostability

To whom it may concern:

Nordic Paper's Kraft papers:

- BioKraft
- MF, Sack and MG kraft papers
- MF, Sack and MG kraft papers, with wet strength
- FW101

are compostable according to SS-EN 13432.

These paper grades will decompose with ≥ 90 % disintegrated into < 2 mm pieces after 12 weeks or less. (EN 14045). This is verified by testing in an external, independent laboratory. (SP Technical Research Institute of Sweden, latest test report/certification 4P02454, 2014-10-22)

Åmotfors, 2016-10-28
