Swedbag

## Food in contact with paper

Our paper is manufactured from virgin fibres with the addition of small amounts of paper chemicals. This paper is suitable for food packaging and may also stand in direct contact with dry, moist and fatty foodstuffs. Tests conducted by the ISEGA Institute in Germany confirm that all our paper is approved according to the following standards:

<b>Edition</b>	<b>Chapter/Section</b>
Germany:	BfR Recommendation XXXVI (1 July 2016) LFGB (18 July 2016)
USA:	FDA , 21 CFR Ch.I (1 April 2016) 1, § 176.170 and 176.180

Model Toxics Legislation by Source Reduction Council of CONEG of December 14, 1989 (last modification 2008).

Our products are manufactured in compliance with good manufacturing practice (GMP) as stated in the **EU Regulation (EC) 1935/2004 and (EC) (2023/2006)**. This means that the material, as delivered from the plant and used under normal and foreseeable conditions and in accordance to given limitations in this document:

- Do not endanger human health.
- Do not change the composition of packed food stuff in an unacceptable way.
- Is marked and fully traceable.

This certificate is valid until June 2019.

With best regards,

**Mondi**
